

How to clean & disinfect

Trash/Recycling Receptacles

-  Select a Maxim one-step cleaner and disinfectant that works effectively on hard, non-porous surfaces.
-  Put on your safety glasses and gloves.
-  Empty trash can, remove can liner, and clean any gross soils before disinfecting.
-  Consult product label instructions for proper dilution.
-  Spray solution onto the entire surface of the receptacle until thoroughly wet.
For spray applications, hold 6-8 inches from the surface.
-  Allow surface to remain wet. See product label instructions for appropriate dwell time.
-  Wipe dry with a clean cloth or allow to air dry.
