SAFE-TO-SHIP™

Pull and ship!

Pull cases from the pallet
and simply apply
the shipping label.

No more wrapping
products individually
prior to shipping.

Your products ship without stress

Why get frustrated with common shipping problems when you can get Safe-to-Ship™ packaging instead? Designed to prevent product damages that can negatively affect your cost to serve, Safe-to-Ship uses durable, proprietary packaging technology to protect your products during even the roughest deliveries.

Our in-house team specially engineered Safe-to-Ship packaging to solve common shipping problems we've all experienced. To ensure your customers receive their products undamaged, we put this cost-saving solution to the test... **time and time again!**

SAFE-TO-SHIP™

Innovative packaging that makes an impact

Growing your business is our business.

Third party tested to meet **FedEx, UPS, and Amazon** standards, **Safe-to-Ship packaging** expands your reach so you can deliver to more doors nationwide. One simple switch to this innovative packaging will help you...

Reduce your cost-to-serve

Lower hidden return costs and less order credits.

Deliver to more doors

Reach **MORE** customers than ever before by selling to new markets.

Grow your business with ease

Simplify your process for easier days overall.

Shakes, kicks, and falls...

Safe-to-Ship boxes survive it all!

Deliver this ...

Not this!

Built to withstand rough handling and provide protection and support for **MAXIM** products.
